

The management system governing the manufacture
of this product is ISO 9001:2015 certified

## Features

| $\square$ | Direct Drive ${ }^{\circledR}$ technology |
| :--- | :--- |
| Low windage |  |
| $\square$ | Lightweight fitting |
| $\square$ | No hinges, clips or lids |
| $\square$ | Integrated longlife photocell |
| $\square$ | Excellent thermal management |
| $\square$ | Fully sealed PC glazing |
| $145 \mathrm{Im} / \mathrm{W}$ |  |
| $\square$ | Perfect maintenance lantern |

## Benefits

- Up to $60 \%$ energy reduction
- Ideal solution for old columns/poles
- Quick and simple to install
- No driver or photocell maintenance
- Low whole life cost and risk
- Minimal column loading
- Ideal 'maintenance' lantern
- Superior lifetime

## Photometry

Example optics for footpaths \& residential

## Product Overview

The INDO AIR1 is a revolutionary LED luminaire designed for a multitude of applications. Using our latest Direct Drive ${ }^{\circledR}$ technology the unit requires no LED driver and has no wear out components whatsoever, resulting in an excellent full product life, set purely by the LEDs themselves. The unique casting (with no moving parts and an internal mounting bracket) is constructed from marine grade aluminium providing effective thermal management and an extremely robust luminaire structure.
Despite its robustness, the luminaire is extremely light at only 3.1 kg and the sleek design results in minimal column loading, (perfect for old columns or pole bracket arrangements). Combined with the multiple mounting options available as standard, this makes the AIR extremely easy for a single operator to install.

The AIR is supplied in fully recycled and recyclable packaging, with two luminaires in each box. Robust inserts can be easily flattened following installation for recycling or return. A total of 160 luminaires are packed onto one pallet.

## Direct Drive ${ }^{\circledR}$ delivers:

- Lowest whole-life costs
- Lowest whole-life maintenance risk
- Market-leading reliability
- Best value procurement route

## AIR1 Technical Specifications

| 色 PRODUCT ORDERING OPTIONS |  |
| :--- | :--- |
| Model | AIR1, AIR1+, AIR1 DALI |
| Power | 10W to 40W |
| Lumen Output (4000K) | 1067Im to 4,000lm |
| Correlated Colour <br> Temperature (CCT) | $3000 \mathrm{~K}, 4000 \mathrm{~K}, 5000 \mathrm{~K}$ |
| Control Options | 20mm pre-drilled <br> NEMA 3, 5 or 7-pin |
| Internal Photocell | $20 / 20,35 / 18,55 / 28$ <br> Not fitted or activated |
|  | Fixed <br> pre-set 50\% [00:00-05:00] <br> pre-set 75\% [00:00-05:00] <br> pre-set, multi-step options <br> Other programs on request |
| Pre-set Dimming | 1C, SW, SWA, SWB <br> A1, A2, A3 |
| Optics | RAL9005 Jet Black <br> RAL7040 Window Grey <br> Other options on request |

For more information on selecting the correct lantern specification to suit your application and design criteria, please contact your local account manager direct or call the main office (option1 sales)

## KEY FEATURES

| Direct Drive ${ }^{\text {® }}$ | Yes |
| :---: | :---: |
| Lighting Classes | S4-S7 |
|  | P4-P7 |
| Glare Control | Classifications up to G6 |
| Replacement For | 50W, 70W SON, 45W, 60W |
|  | CPO-TW, $24 \mathrm{~W}, 36 \mathrm{~W}, 40 \mathrm{~W}$, |
|  | 55W PLL, 32W, 42W PLT |
| Dimming Range (DALI) | 100\% down to 50\% output |
| Constant Light Output | Yes |
| Reliability | 0.58 failures per million operating hrs |
|  | LM6 HPDC aluminium |
| Materials | Stainless steel grub screws, UV Stabilised Polycarbonate |

## PHYSICAL PROPERTIES

| IK Rating | IK08 |
| :--- | :--- |
| IP Rating (Optic + Gear) | IP66 |
| Windage | $0.025 \mathrm{~m}^{2}$ |
| Dimensions (LxWxD) | $427 \times 200 \times 110 \mathrm{~mm}$ |
| Net Weight | 3.1 kg |
| Operating Temperature <br> Range | Up to $-20^{\circ} \mathrm{C}$ to $+40^{\circ} \mathrm{C}$ |

| L LEDs |  |
| :---: | :---: |
| Risk Group | RG1 (low risk) |
| LED Module (Options) | Opus |
| Lamp Efficacy (4000K) | $145 \mathrm{Im} / \mathrm{W}$ |
| Lumen Maintenance at 100,000 hours | L84B50 |
| Product Rated Life L80B50 | 140,000 hrs |
| Colour Rendering Index (CRI) | >70 |
| Direct Drive ${ }^{\text {® }}$ Current | From 4 mA to 25 mA |
| SP Ratio (4000K) | 1.8 |
| Exact LED specifications vary depending on selected light module and will be confirmed with product choices |  |
| (1) ELECTRICAL |  |
| Input Voltage Range | 195-265 V @ 50/60Hz |
| Operating Frequency | 100 Hz |
| Power Factor | $>0.95$ to >0.99 |
| CLO | AIR1+ and AIR1 DALI |
| Soft Start | Yes |
| Extreme Soft Start | No |
| Automatic Disconnect | Not applicable |
| CMS Compatible | Yes |
| Photocell compatibility | Fits all PEC, Mini or NEMA |
| A wide range of options are available to ensure customers can specify lanterns around their needs to gain cost-efficiencies. |  |

| \% INSTALLATION |  |
| :--- | :--- |
|  | Side entry $34-42 \mathrm{~mm}$ <br> * Side entry $48-60 \mathrm{~mm}$ <br> Post top $60 \mathrm{~mm}-76 \mathrm{~mm}$ |
| Mounting Options <br> * additional order line item | NB: $5^{\circ}$ standard, $0^{\circ}$ with <br> optional shin. <br> * For hockey stick bracket <br> mounting, $110 \mathrm{~mm} \times \varnothing 42 \mathrm{~mm}$ <br> extension spigot available |
| Mounting Heights | 4m to 6 m |
