Pebble Plug & Play White

Pebble Plug & Play

Technical Specifications

Voltage	220–240v 50Hz / 110–120v 60 Hz
Power	300w–700w
Net Weight	2.6Kg
Dimensions D x W x L	145 x 271 x 323mm
Noise level	72dB at 1m
Cover material	ABS

Outstanding design coupled with next generation engineering, it's instantly a best in class hand dryer.

The Pebble is the only hand dryer to offer true multi-product Plug & Play functionality. It has a low environmental impact without compromising on style or efficiency – producing 90% less CO² compared to other hand dryers.

A high quality, low-cost hand dryer that would be a fitting finish to any stylish washroom, the Plug & Play offers an easy to use snap in/out system, removing the need for skilled labour. The unique design is stand out, but the noise level isn't.

Along with the sleek and modern look, the Pebble Plug & Play also boasts ION PURE anti-microbial metal ions – preventing the buildup of offensive odour, and bacteria, mold and viruses growing inside the hand dryer. 'Clean Air' filtration offers the user an added layer of hygiene.

The Pebble HEPA Filter

When the HEPA filter needs replacing in the Pebble Plug & Play, the hand dryer will tell you it's time.

It's the only machine on the market to let you know you need to change the old filter for a new one - so you can ensure your dryer is always only ever pumping out clean air!

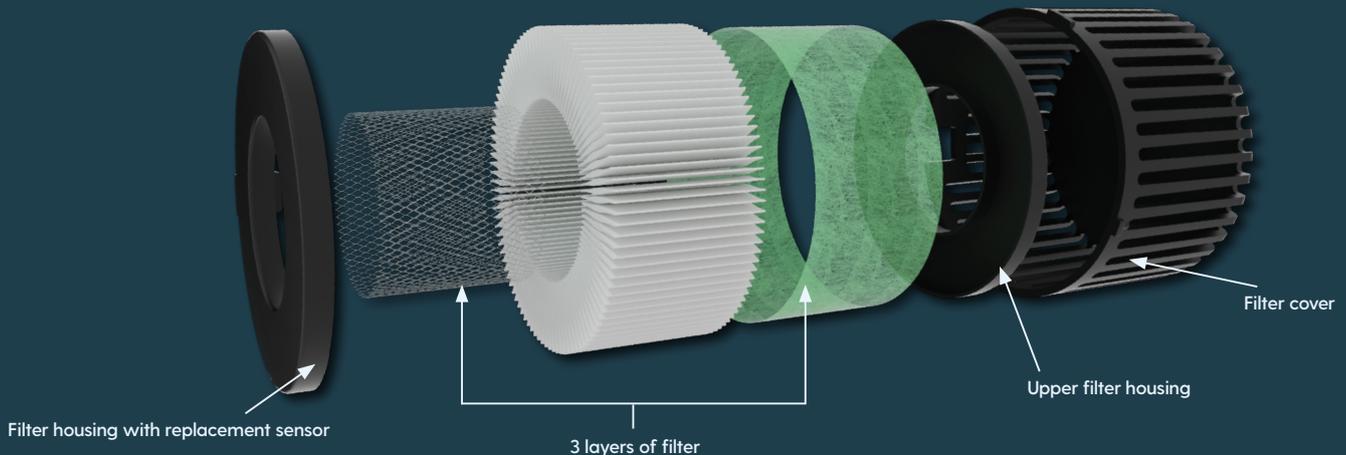

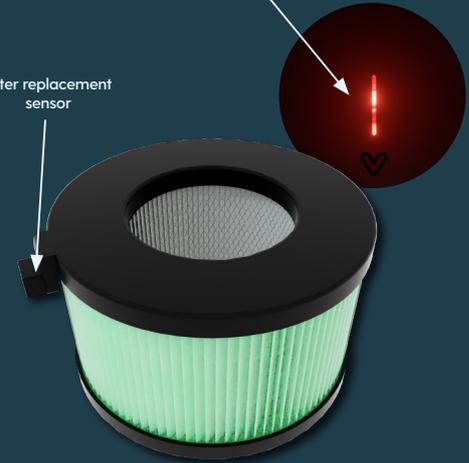

Our HEPA filter in the Pebble Plug & Play removes at least 99.97% of dust, pollen, mould, bacteria, and any airborne particles with a size of 0.3 microns (μm).

Particles that are larger or smaller than 0.3 microns are trapped with even higher efficiency.

The coronavirus that causes COVID-19 is roughly 0.125 microns in diameter. It falls squarely within the particle-size range that our HEPA filters capture with extraordinary efficiency.

The LED on the front of the Pebble will flash to let you know when it's time to change the HEPA Filter

ION PURE Technology

Pebble
True Plug & Play

The Pebble True Plug & Play comes with antimicrobial ION PURE technology inbuilt into the dryer.

What is ION PURE?

ION PURE is a soluble glass solution containing antimicrobial metal ions that's impregnated into the Pebble shell during the manufacturing process – creating a germ and bacteria resistant finish.

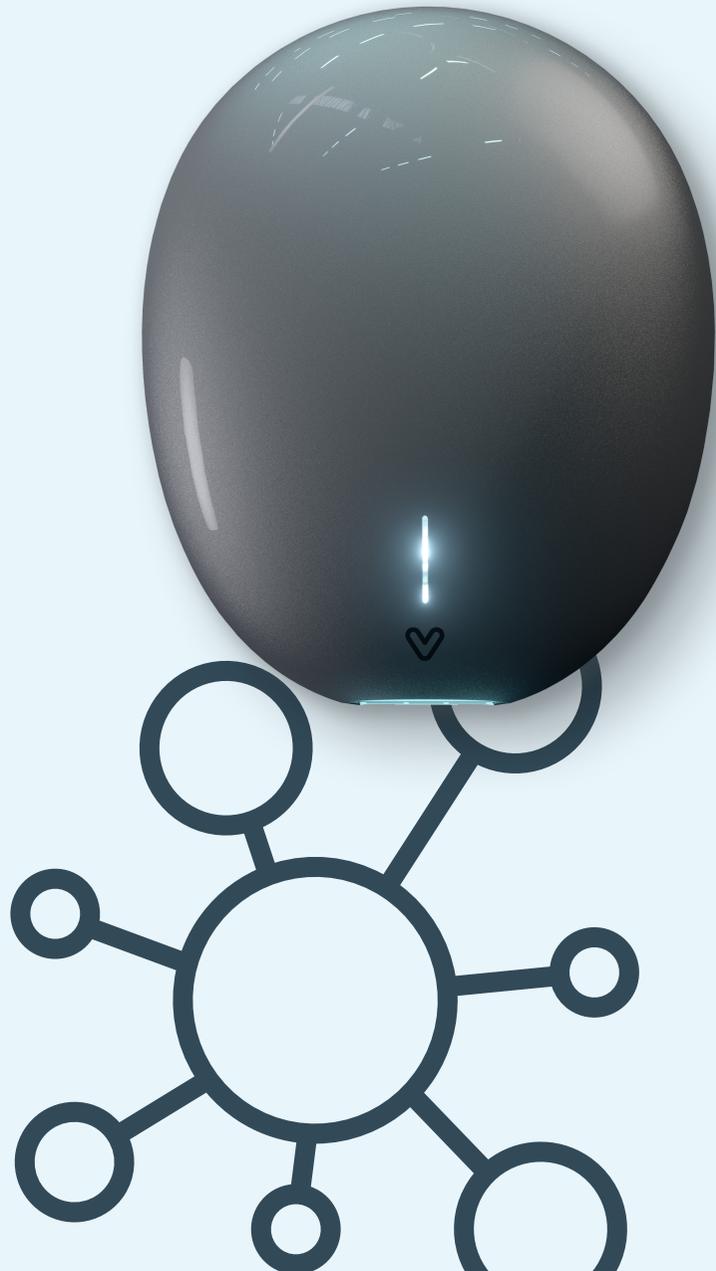

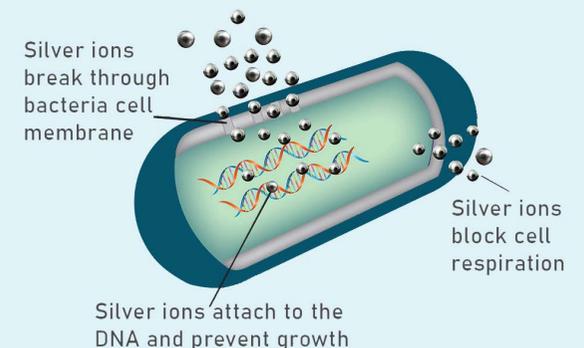

How does it work?

Silver and Copper metal ions have antimicrobial properties that kill bacteria. Glass retains metal as ions and releases them gradually in the presence of water or moisture. So, the materials are mixed together to create a solution that can be added to a product at manufacturing stages – giving it an inbuilt layer of protection against bacteria.

The actual science (aka the boring bit)

The Silver and Copper metal ions infused in the glass solution have an antimicrobial effect on bacteria because they penetrate or affix to their cell membranes. When the metal ions break through the cell's membrane, they block the cells respiration and attach to their DNA, preventing growth. By disrupting and compromising the cells structural integrity, the metal ions cause catastrophic structural failure, which ultimately leads to the elimination of the bacteria.

How Silver ions kill bacteria:

Pebble Plug & Play Specification

Finishes	White	
	Black	
	Satin	
Construction	Materials	Fireproof 94VO, ABS
	Net Weight	2.6Kg
	Packed Weight	3.2kg
Dimensions	Product Height	323mm
	Product Width	271mm
	Product Depth	145mm
	Packaging Height	375mm
	Packaging Width	320mm
	Packaging Depth	200mm
Energy Consumption	Electrical Supply Voltage	220-240 Volts/ 110-120 Volts
	Electrical Supply Frequency	50/60Hz
	Standby Power Consumption	<0.5 Watts
Performance	Minimum Motor Life	5000 Hours
	Dry Time (Max Settings)	12 Seconds
	Universal Brushless Motor	Yes
	Motor Speed (Max Settings)	30,000 RPM
	Air Speed	96MPH
	Air Volume (Max Settings)	84M3/h

Performance	Operating Temperature Range	Motor Thermal Protection auto resetting at 120°C
	Heater element Power	0- / 400 Watts
	Motor Cut-off Time	50 Seconds
	Motor Class	Class 1
Noise	Operating Sound Level	72dB (manufacturer stated)
	Sound Level Notes	Independently tested to be 72dB at max speed
Rated Power	Rated Power (min Setting)	300 Watts
	Rated Power notes	Heater on off settings
	Energy per dry (max setting)	5.33 Wh (Watt-hours)
	Energy per dry (min setting)	2.33 Wh
Certification	Energy per dry notes	Based on inhouse testing dry times at max setting
	UKCA, UL, TUV/GS Approved, CE marked in accordance with EEC documents	

24 Hour Replacement Warranty

The special Plug & Play 24 Hour replacement warranty for the Pebble and Pebble Mini.

We pride ourselves on our very simple replacement service;

1. Simply call our technical support line on 01425 689313 and report your fault.
2. Our technical team will call you back within 60 minutes.
3. If we cannot solve the problem on the phone, a replacement hand dryer will be dispatched that very day.*
4. When you receive the replacement dryer, simply follow the instructions on the box or download the QR code video on how to replace the dryer – anyone can do it, no training required.
5. That's it, your good to dry again.
6. Place the potentially faulty hand dryer in the same box, secure, and call us on 01425 616013 to arrange collection.

Now, the good to know:

Our 24 HR service runs Monday – Friday, only in UK and only applies to units in warranty and plug & play enabled. In order to gain 24 HR replacement the initial fault must be recorded before 1pm that day, if the fault is recorded after 1pm, the replacement unit will be dispatched the next day*. Non return of the potentially faulty unit will lead to a charge. If the returned potentially faulty unit is deemed out of warranty or the fault is not warranty related i.e. vandalism, excessive motor wear, then a charge will be applied. We take no responsibility for courier delays. We take no responsibility for courier delays.

Jason Moore, Wilson Washrooms 

“We’ve just started using the Pebble. Unlike other hand dryers the plug and play design of the dryer is fantastic.

Our electrician replaced a traditional hand dryer with a Pebble unit yesterday. It only took 20 minutes to complete from start to finish, where a traditional dryer change would take around 40. Our electrician made the comment that it was the easiest dryer he’d ever had to fit!

The dryer looks sleek and modern. The noise level of the Pebble is very low in comparison to the incumbent dryers that were being replaced on site. Our customer was extremely impressed with the dryer and reduced noise levels!

The greatest benefit for our customer of the Pebble Hand Dryer is that the down time of the dryer due to any unforeseen faults is reduced to minutes instead of days, as any faulty units can be replaced by unskilled labour instantly - no need for an electrician. I’ve seen many different hand dryers in the past 25 years and I’d say that the Pebble’s probably the most innovative, practical and stylish dryer I’ve seen in this time.

Definitely a 5 star product.”
