

Schools: cost effective space saving heating

Customer brief

To provide a heating solution for cold classrooms.

Background *Shireland Collegiate Academy*

Phase 1 of this project was to heat 3 cold classrooms and monitor the cost effectiveness of the solution.

Solution

- 12 x 0.43 kW panel heaters were built into the ceiling.

Results

- ✓ The heating system is constantly being monitored
- ✓ It shows an 80% saving compared to gas
- ✓ For the full analysis please [click here](#).
